SUMMARY

I am a qualified and professional Full stack developer with over 3 years of experience in Web development. My objective is to work for a reputed organization where I can apply my knowledge to help meet organizational goals while enhancing my professional and technical skill set.

EXPERIENCE

FULL STACK DEVELOPER

WebExcels   📅 05/2024 - Present   📍 Lahore, Pakistan

🔗 https://www.webexcels.com/

- Developed and maintained an ERP system with a React frontend and Laravel backend, ensuring a seamless user experience and efficient data management.
- Built multiple websites using React for the frontend and Laravel for the backend, implementing responsive designs and optimizing performance.
- Worked on several minor and major projects, handling both frontend and backend development tasks efficiently. Leveraged React.js, Laravel, REST APIs, and database management to deliver scalable and high-quality web solutions.

FULL STACK DEVELOPER

Emerald Telecom   📅 10/2023 - 05/2024   📍 Lahore, Pakistan

🔗 https://emeraldtelecom.com/

- Engineered the backend using Laravel, managing call routing, authentication, and data storage for a scalable VoIP solution.
- Integrated various frontend technologies, ensuring an intuitive UI for seamless communication and control.
- Managed MySQL databases, optimizing queries for high availability and performance.
- Implemented real-time communication features, improving service reliability and response time.

FULL STACK DEVELOPER

Meta Logics   📅 10/2022 - 10/2023   📍 Sahiwal, Pakistan

Company Description

- Engineered the backend using Laravel, managing call routing, authentication, and data storage for a scalable VoIP solution.
- Implemented real-time communication features, improving service reliability and response time.
- Worked on several minor and major projects, handling both frontend and backend development tasks efficiently. Leveraged React.js, Laravel, REST APIs, and database management to deliver
